

North East Chamber of Commerce

Local businesses have the opportunity to purchase newly crafted waste bins that will be placed around town. The bins will be crafted by local welder, Roy Peters, to resemble wine barrels. The outside of the barrel will be (color) mahogany, with a removable insert can. The name of the person or business that purchased the can will be embossed on a plaque attached to the outside of the bin, along with clusters of grapes. EPC Powder Mfg. is donating the powder coating, and Wire Weld, Inc. is donating the firing process for the coating. The Boro will pick up the barrels for winter storage. The barrels will cost **\$375.00** (no tax), which includes the outer mahogany barrel, the insert can, grapes, and the plaque containing the name of the donator. Purchasers have the option of including their business logo on the plaque, at an additional price. These barrels will reflect the rich heritage of our area and be an incredible opportunity for businesses to advertise around town. Several barrels have been sold and will be visible in town shortly. Please contact Sue Spacht at the Chamber office with any questions at 725-4262. The order form below provides the purchase information. (The Chamber is **not responsible** for any theft/damage to the barrels after they are sold).

Name: _____

Address: _____

Phone: _____ Please include email: _____

Print name **exactly** as you want it to appear on the barrel (included in price): if you want a logo included there will be an additional cost and you need to call to make special arrangements.
